AtliQ Hardware's

BUSINESS PERFORMANCE ANALYSIS

Presented by Sithi Samanta

November 7, 2026

BUSINESS MODEL OF ATLIQ HARDWARES

CORE OFFERINGS

Hardware products including PCs, mice, keyboards, and peripherals

MANUFACTURING & SUPPLY CHAIN

Internal manufacturing and global distribution warehouses

B2B RETAIL CUSTOMERS

Partnerships with CROMA, BEST BUY, Flipkart etc

CHANNELS

BRICKS & MORTAR

Physical retail partners (CROMA, Best Buy)

E-COMMERCE

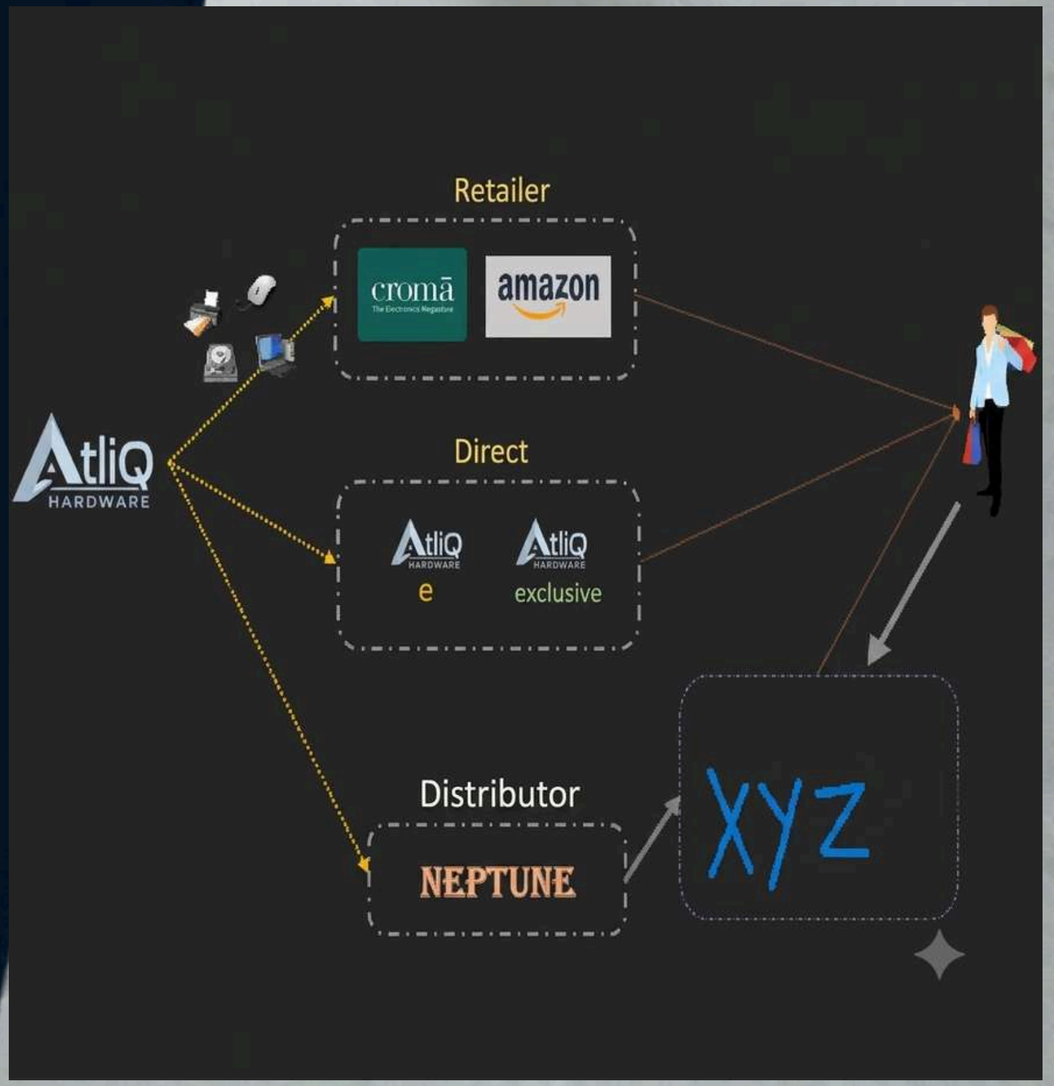

Online platforms (Amazon)

BUSINESS MODEL CHANNELS

Retailer platform: Physical & online stores

Direct sales: AtliQ E-Store and AtliQ Exclusive

Distributor channel: Regional partners (Neptune in China)

STAR METHODOLOGY OVERVIEW

A structured approach to turn data into business impact.

S
SITUATION

Rapid global expansion across 800,000+ sales records created data silos, making it difficult to evaluate revenue performance and profitability gaps.

T
TASK

Build a report to analyze multi-year revenue growth, track P&L metrics, evaluate market targets, and pinpoint profitability leaks.

A
ACTION

- Robust ETL in Power Query
- Star schema in Power Pivot
- Dedicated dim_date table & custom DAX measures
- Dedicated reports tailored to business purposes:

R
RESULT

- Generated high revenue in FY21 (+204.5% YoY growth)
- Margin drop from 41.43% to 36.43%
- $54.9M target gap identified
- Top-line growth not translating to profitability

SITUATION — THE DATA CHALLENGE

- Rapid global expansion generated over 500,000 transaction records across diverse regions, channels, and product lines.
- Disconnected data sources created severe visibility bottlenecks for executive decision-makers.
- Lack of a unified reporting system to track enterprise revenue growth and evaluate true profitability.
- Inability to monitor actual sales against regional targets or pinpoint missing target gaps.
- Difficulty analyzing cost of goods sold (COGS) and detecting gross margin compression across product lines.
- Absence of granular segment breakdowns to evaluate market, customer, and division-level performance.

TASK —
MANAGEMENT'S CORE QUESTIONS

01

WHERE IS THE BUSINESS GROWING?

Top-performing markets, customers, and product lines

02

WHERE IS IT FALLING BEHIND?

Underperforming regions, missed targets, and lagging segments

03

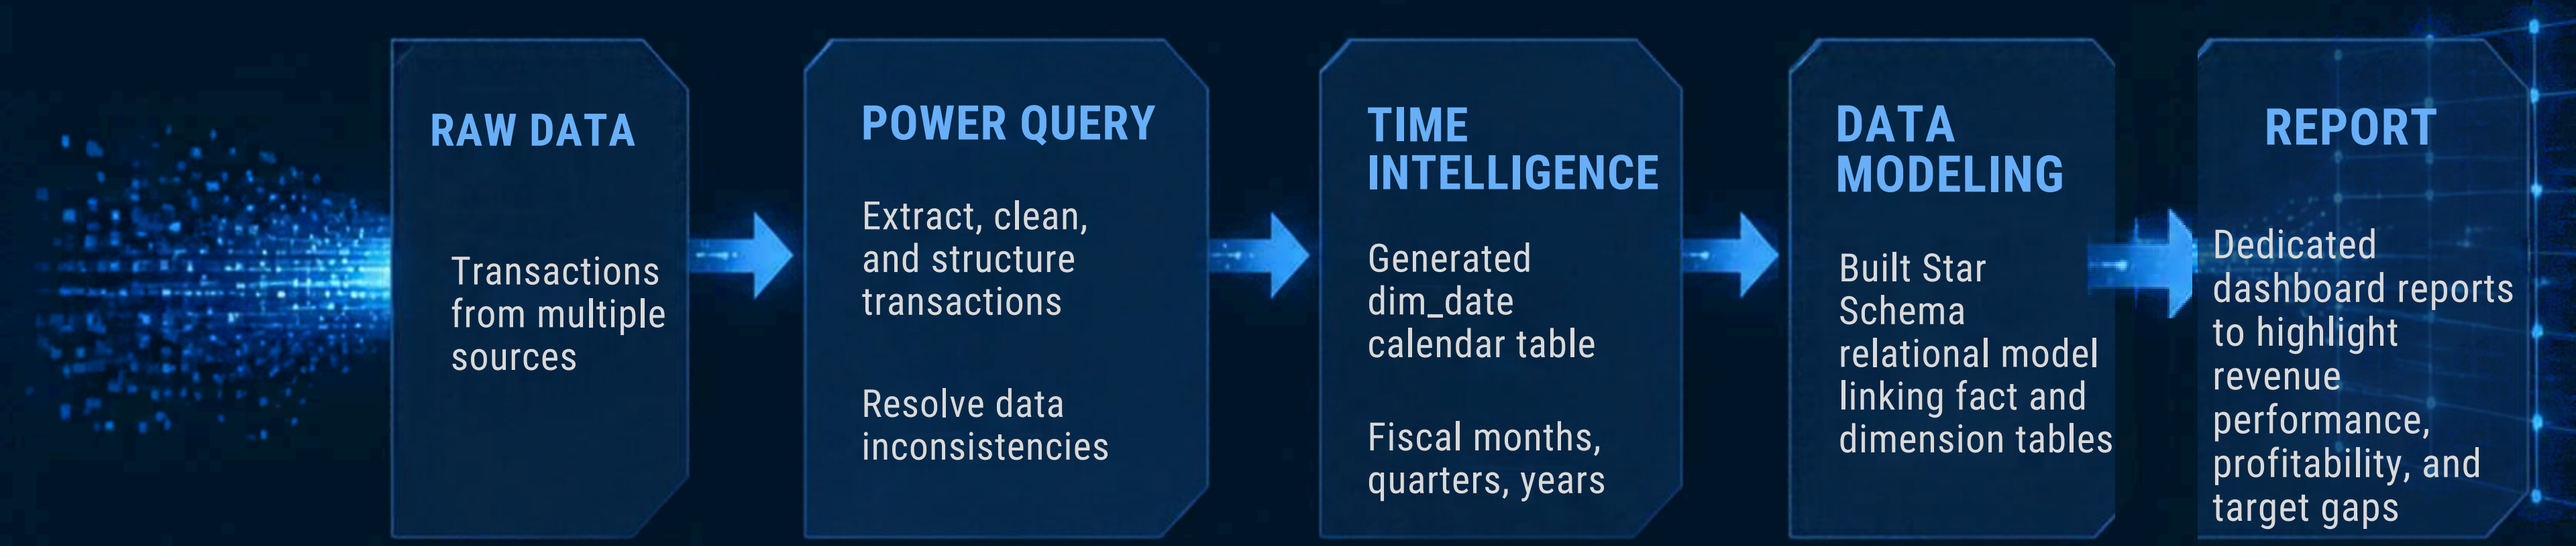

IS GROWTH TRANSLATING INTO PROFIT?

Does strong sales volume drive bottom-line profitability?

ACTION –
DATA ARCHITECTURE & ETL WORKFLOW

Structured process. Reliable data. Actionable insights.

EXTRACT
Ingest raw data from multiple sources into a unified pipeline

TRANSFORM
Clean, validate, and standardize data for consistency and accuracy

ENRICH
Add time context with a comprehensive fiscal calendar

MODEL
Organize data in a scalable Star Schema for better analytics

ANALYZE
Built interactive sales & finance reports

ACTION –
DATA TABLES & DAX MEASURES

Powering insights with a strong data model and robust DAX implementation.

CORE DATA TABLES

factSales_monthly (transactions)

ns Targets_2021 (sales targets)

dimCustomer (market, platform, channel)

dim product (division, segment, category)

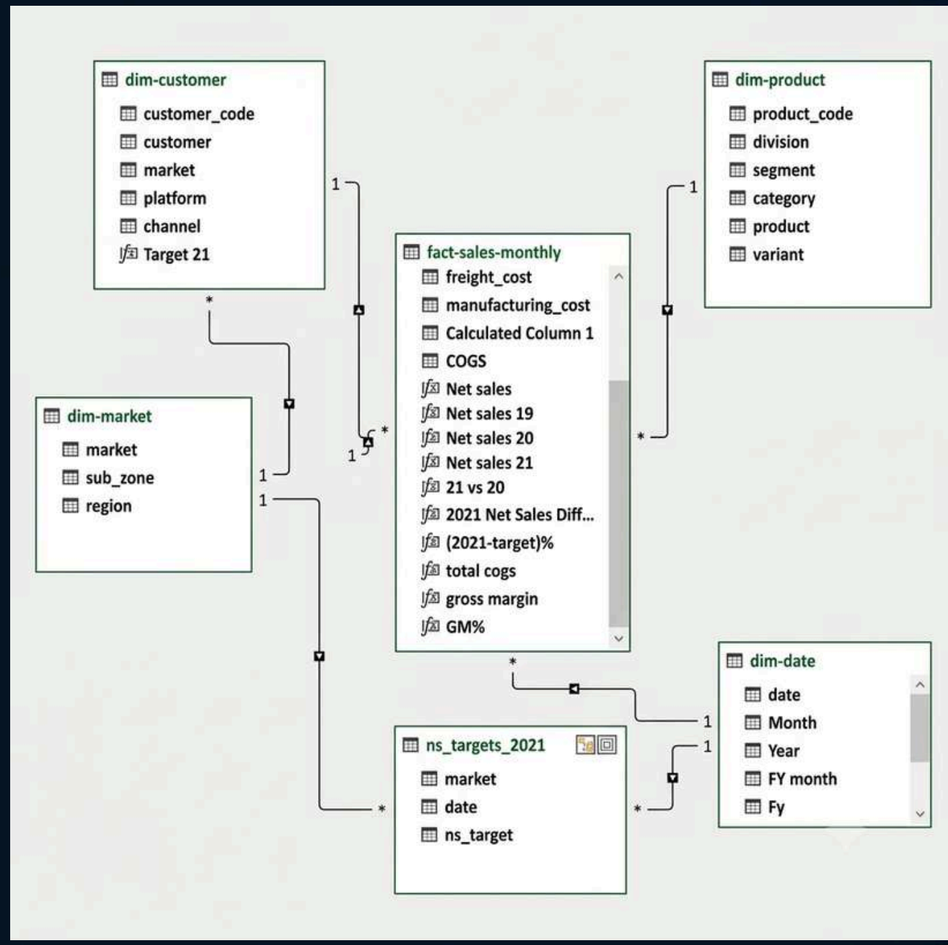

dim market (regional hierarchy)

dim_date (fiscal calendar)

DAX MEASURES

```
net_sales =SUM(fact_sales_monthly[net_sales_amount])
net_sales_19 =CALCULATE([net_sales],
dim_date[fy]="2019")
net_sales_20 =CALCULATE([net_sales],
dim_date[fy]="2020")
net_sales_21 =CALCULATE([net_sales],
dim_date[fy]="2021")
target_21 =SUM(ns_targets_2021[ns_target])
2021-Target =[net_sales_21]-[target_21]
21_vs_20 =DIVIDE([net_sales_21]-[net_sales_20],
[net_sales_20], 0)
2021-Target % =DIVIDE([2021-Target],[target_21], 0)
total_cogs =SUM('fact-sales-monthly'[COGS])
gross_margin =[net_sales]-[total_cogs]
gross_margin% =DIVIDE([gross_margin], [net_sales], 0)
```

DATA MODEL

RESULT – KEY FINDINGS & FINANCIAL INSIGHTS

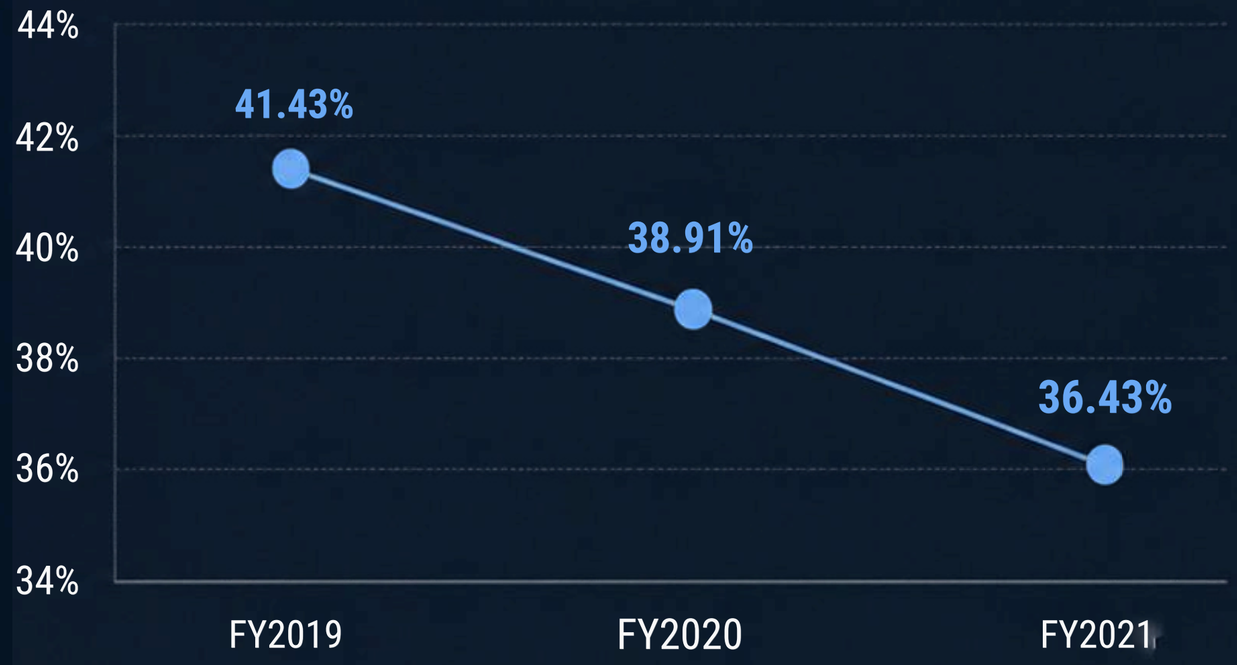

FY2021 SALES- $598.9 Million

SALES TARGET GAP- Missed by ~$54.9 Million

- **Customer Revenue:** Overall sales doubled to ₹598.9M & highest yoy%- Nova.
- **Market Efficiency:** Poland experienced the lowest target performance, missing its goal by -18.1%
- **Top Product:** AQ Mx NB grew most on 21 vs 20
- **Division Report:** P&A division led highest revenue share
- **Product Quantity:** Peak quantity: AQ Master wired x1 Ms (4.2M units); lowest quantity: AQ HOME Allin1 Gen 2 (8.9K units).
- **2021 New Products:** New launches contributed ₹176.2M
- **Top 5 Countries:** India and USA dominated
- **P&L by Fiscal Year:** n FY2021, EU led YoY sales growth at +258%, while APAC dominated total volume with ₹336.3M in net sales across the 2019–2021 period.
- **P&L by Quarter:** Q2 , in all Fy peaked heavily
- **P&L by Market:** Netherlands achieved highest GM% , but India held highest reveneu 49 M.
- **Quarterly Profitability:** ANZ has high Profit in all Quarter

GROSS MARGIN COMPRESSION

Declined from 41.43% in FY2019 to 36.43% in FY2021

CORE INSIGHT

Volume growth did not drive profitability; AtliQ must shift focus from volume expansion to margin protection.

STRATEGIC RECOMMENDATIONS

FOCUS ON MARGIN PROTECTION

Shift focus from volume expansion to margin protection

TIGHTEN DISCOUNT CONTROLS

Investigate pricing and discount strategies in underperforming markets and low-margin segments

PROMOTE HIGH-MARGIN PRODUCTS

Rebalance sales and promotions toward higher-margin product lines to improve financial health

THANK YOU!

Turning data into clarity.
Guiding the next decisions that **drive growth**.

Let’s shape what’s next—**together**.
I look forward to your questions and insights.
